

**Safeguard Security & Surveillance  
Partners with ASRC for Safe Families**

Sam, who was frequently found on the roof; Matt, who couldn't stay away from the pool; and Shawn, like many of our kids, could undo any lock in the house....

**Ours are the families Safeguard has a heart for,  
and so has created a package of security for your family that will also support  
ASRC programs and services for the Connecticut autism community.**

The free security package comes with equipment that is customizable to suit your needs and includes: smoke & fire protection, talking keypad, door contacts, phone hook up, motion detectors, internal siren, backup battery, and many other options to choose from like identity theft protection and medical alert. Equipment, installation and three months monitoring are included at no charge.

**For each system installed, Safeguard will donate  
\$50.00 to ASRC.**

The security system offer extends to family and friends in 48 states, but will specifically benefit Connecticut programs and services to the autism community through ASRC.

Safeguard consultant Beth Kavy, with her own personal connection to autism, is available for free consultations to help you; 860.877.4530 or Bethk@safeguardssinc.com  
You can also visit Safeguard at the Big E and the ASRC Autism Resource Fair
