ASRC is a 501(c)(3) organization (EIN: 061494475)

ASRC provides individuals, families, and professionals with support, information, education, community, and advocacy

ASRC's Mission:

To provide lifelong access to opportunities for persons on the autism spectrum with the goal of being fully-included and participating members of their communities.

ASRC's Vision:

To prepare those with ASD (Autism Spectrum Disorders) for the world, as we prepare the world for those with ASD.

Social & Recreational Programs

From 2.5 years to adult, and everything in between, ASRC provides social and recreational opportunities for those with ASD.

Support Groups

ASRC Provides practical approaches for where people are in their autism journey.

Social Skills Groups

We work collaboratively, across groups, to develop resources.

Workshops, Training, LifeNet & More

Expert speakers, professional training, events, live and on-demand training, + LifeNet, the independent living support program for adults.

For over twenty years ASRC has been helping people with autism spectrum and neurodiverse profiles build meaningful connected lives. We provide individuals, families, and professionals with information, education, community, support, and the advocacy they need every day.

We are needed now, more than ever.

ASRC provides services, supports and resources to families and individuals living with autism as well as to the educators, medical and therapeutic professionals and community providers who work with them. ASRC provides opportunities for parent networking, activities, social groups, training, advocacy and events for all ages, as well as responding to hundreds of families who are new to the diagnosis or who need guidance navigating transition and adult issues. The current incidence rate of autism is 1 in 54 (2019 – Government survey), and ASRC's services are becoming increasingly critical.
